	————— \$ 984 65

In addition to the above annual expenses, it was found necessary to purchase a new pair of horses for Team No. 1, as the old horses were condemned by a veterinary after careful examination.

The new horses cost \$650 for the pair, and the town was allowed \$300 for the old horses. One of the new horses was taken sick and in spite of the work of the veterinary and the care of driver Huckins, the horse died. This made it necessary to purchase another horse, which was done, the price paid being \$300. The amounts paid for horses is as follows:

B B Wright	\$ 350 00
Ipswich Mills Co	300 00

Team No. 1 worked 1781 hours on the highway, which at 50 cents an hour would mean that the team earned \$890.50. There was also an allowance for \$137.50 for work for the Fire Department, making a total of \$1028.00 earned by Team No. 1. In computing the work of both teams, their time is taken only for hours actually worked. The teams are not credited for time when they are idle. Every item of expense connected with the team even to repairs on the stable, etc., is charged up to the team. The balance in favor of Team No. 1 is \$43.35. The fact that for nearly two months Team No. 1 was unable to work on account of the horses being sick is the cause of this balance being smaller than usual.

TEAM NO. 2.

OSCAR LITTLEFIELD, DRIVER.

Paid

Oscar Littlefield, driver	\$ 600 00
H D Lambert, veterinary.....	31 00
W G Horton, grain	230 44

J W Goodhue, supplies	2 65
L E Condon, rent of barn.....	60 00

Chester Patch, labor	\$ 50
Ames & Co, supplies.....	3 25
Town Farm, hay	117 00
	———— \$ 1141 70

Team No 2 worked on highway work 901 hours, and on street sprinkling 830 hours. The team earned the following amounts at 50 cents an hour, the price paid for two horse teams:

Highway work, 901 hours	\$ 450 50
Sprinkling, 830 hours	415 00
Carrying school children 10 months	375 00
Allowance from Fire Department.....	137 50
	————
Total.....	\$1378 00

2350 loads of water, 600 gallons to the load, or 1,410,000 gallons of water were used on the streets.

The balance in favor of Team No. 2 is \$236.30

From the total expense of the Farm as shown by the above figures, it is only fair to the superintendent, Mr. Appleton, to say that bills contracted by his predecessor, Mr Sylvester, for supplies used during the year ending Dec. 31, 1905, to the amount of \$488.03 should be deducted. Following is a list of the bills:

OVERSEER'S OF POOR REPORT.

We are well pleased with the showing made at the Farm by the new Superintendent, Mr. Daniel S. Appleton. In spite of serious handicaps he has succeeded in keeping the average cost per week for the inmates at a lower figure than last year, and the inventory shows that there is a net increase of \$326. in favor of the town. He has not only added to the stock so far as numbers are concerned, but has also sold a number of inferior animals and replaced them with a better quality. The sales from the Farm increased from \$2546.62 in 1905 to \$3097.73 in 1906. There was an increase in expense from \$4188.50 to \$4256.13, but that increase is more than accounted for by the fact that \$392. was paid in exchange for better stock, \$92.90 for putting in a modern system of watering the stock in the barn, and \$150. for extra repairs on buildings. In addition to these items there was also unusual expense for furniture and supplies, owing to the fact that the former superintendent owned and took away with him considerable of the furniture. Attention has been called to the old bills for 1905 sent in this year. If the old superintendent had been in charge this year, it would not have been necessary to have separated the bills, but it would have been manifestly unfair to have loaded down a new man with nearly \$500. of old bills, and for that reason we have called attention to it. The new superintendent tried to get in all bills to Jan. 1, 1907, and with very few exceptions succeeded in doing so. We are greatly pleased with the work of both Mr. and Mrs. Appleton, and we look forward to a successful management of the Farm under their charge.

In the outside poor department the expenses have been about the same as last year. As in other years, the larger part of the expense in this department is for sick cases. Under modern methods the expense for this class of cases is constantly on the increase, and this fact but emphasizes what we called attention to last year in regard to the advisability of establishing a local hospital. We are pleased to add our testimony to that of so many others, in commending the little girls of the Hospital Club for the energy and spirit which prompted them to take the initial step towards making our dream of a local hospital a reality. They have given an object lesson to their elders which may well be followed.

The report of Dr. MacArthur, the town physician, shows that under his contract with the Poor Department, he made the following visits:

January	37	February	46	March	19
April	63	May	47	June	46
July	57	August	17	September	32
October	28	November	69	December	45

A total of 516 visits. The contract price with Dr. MacArthur is \$200. a year (which does not include surgical work.) He received an average of 38 cents a visit. Of the amount paid him \$141.00 was charged to other towns, leaving the total cost to Ipswich under the contract \$59.00.

Respectfully submitted,

Geo. A. Schofield, } Overseers
Wm. B. Richards, } of
John G. Sperling, } The Poor.

Ipswich Jan. 1, 1907.

Number of horses and jacks	assessed	667
Number of cows	"	689
Number of neat cattle other than cows	"	187
Number of sheep	"	8
Number sf swine	"	149
Number of fowl	"	6032
Number of dwelling houses	"	1091
Number of acres of land	"	16476

The amount raised by taxation for 1906 was	\$ 58594 83
“ “ “ “ “ “ 1905 “	52572 38
	<hr/>
	\$ 6022 45

This made a difference of \$6022.45 more to be raised this year than last. To raise that amount would have caused an increase of about \$2.00 on the tax rate, but as the town was to receive an additional \$1300 from liquor license fees, as five licenses were to be granted instead of four, we decided to raise the tax rate only \$1.00

The causes of the increased amount to be raised were the following additional appropriations in excess of last year's appropriation.

Schools	\$ 500 00
Farm	500 00
Interest	180 00
Cemeteries	400 00
Moth Suppression.....	1986 38
History of Ipswich	500 00
Brownville St..	500 00
	<hr/>
	\$ 4566 38

There was also a decrease in the corporation tax received from the State, on account of the settlement of an estate which caused us to lose part of our shares in a good paying corporation stock.

When the state corporation tax was allotted this year, Ipswich was given \$6755.55. The chairman of the assessors, in accordance with the plan he has followed for a number of years, worked a number of days at the State House on the corporation books to see if he could secure an additional sum for the town, and as the result of his work there will be paid to Ipswich in February, \$1871.73. The amounts claimed by him last year, \$2589.47, were paid to the town in Feb. 1906.

We feel that it would not be wise on the part of the town to have a further increase in the tax rate. With our present rate,

and fair valuations, we are attracting a class of large tax paying citizens to our town. It would be folly to drive them away by a large increase in the rate. We trust that the finances of the town can be so managed that our rate may decrease rather than increase.

Respectfully submitted,

George A. Schofield,	}	Assessors
Charles E. Goodhue,		of
William B. Richards,		Ipswich

Total Town debt exclusive of Water and Elec- tric Light indebtedness.....		<hr/> \$14297 09

This is to certify that I have made monthly audits of the books and accounts of the Town Treasurer and Collector, approving all bills before they were paid. I have also examined the General Balance Sheets of Receipts and Expenditures and compared them with the various books, and I certify that the same are in conformity therewith. I find the cash balance in the hands of the Treasurer, Jan. 1, 1907, to be \$1001.86. JAMES DAMON; Auditor.

At the annual meeting, it was voted to borrow \$2425 on notes for the purchase of a steam road roller, and it was also voted to raise \$2100 for the payment of old town notes. This would have made an increase in the note indebtedness of the town of \$325, but we have been able to pay one note of \$1000, which the town did not provide for by appropriation, and as a result the note indebtedness has been decreased \$675.

The financial condition of the Town Jan. 1, 1907, was as follows:

Cash on hand Jan. 1, 1907,	\$ 1001 86	
Bills and taxes due town Jan. 1, 1907,	17,221 17	
	<hr/>	\$ 18223 03
Less undrawn orders	\$ 1055 12	
Less tax notes	13,000 00	
	<hr/>	\$ 14055 12
		<hr/>
Balance in favor of town		\$ 4167 91

Although the appropriations for 1906 were larger than in the previous year, the note indebtedness has been reduced, and we have a balance of over \$4000.

Acting on our suggestion of last year, and the report of a special committee appointed to investigate, the town voted to purchase a steam road roller. No provision was made by the town as to who should be placed in charge of the roller, and as the town has sixteen highway surveyors, no one of whom felt that the appropriation for his district would warrant the purchase of proper material and the expense of running the roller, it was not possible to do much work with the roller during the year. We did give Mr.

Aaron Lord, the Surveyor of District No. 1, an extra appropriation of \$50. to test the machine, and the small piece of road he made gives the best of evidence of the value of roads made with a roller. We engaged an engineer for three months to run the roller, but found that the surveyors did not call for the use of the roller and we were obliged to let him go. Later, one surveyor wanted the roller for a small job, but an engineer who understood the machine could not be found at that time. Of the value of the machine there is no question, but we recommend that the town take action to see that it is kept at work. The selectmen, under the present system of highway work, have no authority to do so.

Of the special highway appropriations made at the town meeting the following amounts have been expended.

Brownville St.	\$ 283 86
Lakeman Lane	40 64
County road	00 00

We recommend that the unused balance of each of these appropriations be re-appropriated at the annual meeting.

The unanimous vote of instruction given to the selectmen two years ago to do all that could be done for the abolition of the grade crossing at High St. and at Locust St. has received our attention and in spite of all obstacles we are able to report that the work is nearly finished and it is hoped that by April the new bridge will be open for travel.

The plans are ready and the contracts let for the dredging of our river at the expense of the state and we have asked for an additional appropriation to complete the work.

The plans for the building of a piece of state highway are also ready and the contract is to be let out at once by the Highway Commissioners. Ipswich was granted \$5000 for this work and it will be used on County road.

Many inquiries have been made of us during the year in regard to work done on private land by the Moth Department. We are not in charge of that work, as it is done under the orders of the State, and the local superintendent must do as he is told by the State officials.

There has been a small increase in the police bills this year, but this is accounted for by the fact that early in the year, when breaks were being reported in surrounding towns, a number of the business men suggested that we needed more than one officer on all night duty. We put on a second officer and this has caused the additional expense. That there has been very few breaks in Ipswich may be accounted for by this fact.

During the year the town has lost two officials, J. Farley Kinsman and James Griffing, men who have proven their worth not only as public officials, but as honest, upright citizens.

In conclusion we desire to thank the officials, both elective and appointive, who have given us their aid and support, and who by their attention to their duties, have made it easier for us to report to you that 1906 has been a prosperous and successful year.

Respectfully submitted,

Geo. A. Schofield,	} Selectmen of Ipswich.
Chas. E. Goodhue,	
Chas. G. Hull.

ENGINEERS' REPORT.

To the Selectmen of Ipswich :

Following is the report of the Board of Engineers of the Fire Department for the year ending Dec. 31, 1906.

Number of alarms.....	23
Property damaged by fire.....	\$ 7547
Insurance on the same.....	91900
Insurance paid.....	8027
Number of men in department.....	60
Value of fire department equipment.....	\$ 7500
Value of buildings occupied by the department.....	2000
Value of fire alarm equipment.....	1800
Number of feet of hose.....	5000

We recommend a Central Fire Station.

We recommend that \$2300 be raised and appropriated to run the Fire Department for the ensuing year.

In looking over the department buildings, the Engineers find that there should be something done this year in regard to a Central Fire Station. The Steamer house is in bad shape for the steamer and hose wagon, the Town house certainly is not a fit place for the Hook and Ladder company. The truck must be taken out by hand before the horses are hitched, which makes it very inconvenient. The Engineers' room is occupied by the Board of Health and the School Committee, so it is apparent we are getting short of room. Our Fire Department is in good shape, and it is time they should have a good building to keep their apparatus in.

The following are the box alarms of fires for 1906 :

January 5, Box 26, Union street,
January 17, Box 56, Rowley road, false alarm.
January 29, Box 26, South Main street.
January 30, Box 52, two alarms same box, Mount Pleasant.
February 3, Alarm from bells, Beach road.
February 6, Box 54, Peatfield street.
March 1, Box 41, Appleton's Farm.
March 5, Box 61, Union street.
March 9, Box 35, Water street.
March 26, Box 41, Poplar street and Turkey Shore road.
June 6, Box 52, Brown square.
June 7, Box 52, Brown square.
June 29, Box 26, Union street.
September 30, Box 52, Brown's court.
October 3, Box 52, Hammatt street.
October 4, Box 52, Hammatt street.
October 9, Box 56, Rowley road.
October 18, Box 12, Whittier's Corner.
October 31, Box 54, Estes and Peatfield streets.
December 4, Box 52, Agawam Heights.
December 22, Box 52, Market street.
December 24, Box 26, South Main street.

Respectfully submitted,

A. J. Barton,	} Engineers of Ipswich.
R. R. Glasier,	
T. R. Lord,	

Ipswich, Jan. 1, 1907.

REPORT OF BOARD OF HEALTH

FOR THE YEAR ENDING DECEMBER 31, 1906.

Whole number of acute, contagious and infectious diseases reported, 67; classified as follows :—

Diphtheria.....	3 cases
Measles.....	48 cases
Scarlet Fever	5 cases
Typhoid Fever.....	11 cases

There were no deaths from any of these diseases.

There was also reported to the Board, 8 cases of Tuberculosis.

There were 5 complaints of nuisances, which were investigated. These together with a number of other nuisances discovered by the agent of the Board, were promptly abated.

There were licensed under the law :—

Undertakers.....	3
Slaughter Houses.....	1

A number of licenses to keep swine were also issued under a regulation of the Board. We would call attention to the owners of swine generally, and request them to apply to the Board for licenses. We believe that so far as it has come to their knowledge that such a regulation exists, they have complied with it. This notice is to those who have not.

The town has been fortunate in having no epidemic of contagious diseases the past year. It will be the Board's endeavor to see that such immunity continues.

Chester W. Bamford was appointed Clerk of the Board, and E. Newton Brown, Inspector of meats and provisions.

In the death of James Griffing, the Board has lost a member who was always watchful and faithful ; ready at all times to do his duty, and the value of his services to the town is perhaps better appreciated by us who were familiar with the work he did, than by the citizens at large. He had served the Board as Chairman and agent for many years, and his passing is a matter of keen regret to his associates of the Board.

In closing, we will say that we have been obliged the past year under the law, to render assistance to indigent cases that were formerly cared for by the Poor Department. These cases have greatly increased the expenses of the department, and they are not likely to grow less in the future, with the population increasing; and the people housed as they are in many instances, new sanitary problems are bound to arise. The Board will endeavor as best it may to meet them.

Respectfully submitted,

Geo. E. MacArthur,	}	Board of Health.
Levi W. Mallard,		

Ipswich, Jan. 30, 1907.

TOWN CLERK'S REPORT.

To the Selectmen of Ipswich,
Gentlemen :—

In submitting my annual report, I have nothing new to add to what has already been said in relation to the Town Records. I have caused three volumes to be repaired and bound, since my last report. There are others that require attention and will be looked after during the coming year.

The following is the report from the vital statistics of the past year :—

VITAL STATISTICS.

The whole number of births during 1906, 115.

Males 61. Females 54.

REPORT OF WATER COMMISSIONERS.

To the Citizens of Ipswich :—
Gentlemen,

The Commissioners respectfully submit their thirteenth annual report, for the year ending Dec. 31, 1906.

An examination of the report will show that this department has had a very successful year. The receipts from the sale of water for 1906 are larger than in any previous year.

During the year, we have made extensive repairs on the pumps and they are now in good condition.

We desire to call the attention of the citizens, to the fact that although the total amount of money expended for construction since the works were put in is \$167,524.62, that there has been only \$153,000 worth of bonds issued. There was received \$10,412.58 in premiums on those bonds, and the balance, \$4112.04, has been paid from the earnings of the plant. In addition to that balance, we have in the treasury \$4157.40 making a total of \$8269.44 which the plant has earned above expenses.

Last year we called attention to the fact, that it seemed probable that the residents along East St. might be induced to guarantee the necessary five per cent for an extension along that street, and that it was possible, also, that the growing need of a good water supply at Little Neck, would cause the Feoffees of the Grammar Schools to guarantee a sufficient sum to warrant the laying of a pipe across the marsh from East St. to Little Neck for summer use. While we did not succeed in accomplishing all that was desired, we did get in that part of the East St. extension from Glover's corner to the Searle place, and Mr. Searle has applied for a

further extension to be made as soon as possible during the coming spring. The terms of an agreement have been practically decided on by the Feoffees and the Water Commissooners, under which we expect to have town water at Little Neck before the summer season opens.

There has been very little complaint in regard to the water during the year, and the reports from the State Board of Health, who make monthly examinations of the water, show that it is free from dangerous matter.

We have conferred with the State Board in regard to the question of possible pollution of the water supply from houses and barns situated near the basin, and have received from them a map giving location and distances of possible sources of pollution. When this report is under consideration at the annual meeting, we hope to have a plan to present to the voters for their consideration which will put an end to any possible danger. We do not believe that there is any pollution now, but it would probably be better for the town to act soon rather than when that section of the town may be more thickly settled.

We estimate the receipts for 1907 to be \$10,000.00 and the disbursements \$13,204.70 as follows : Sinking Fund, \$3084.70 ; Maintenance, \$3500.00 ; Services, \$500 ; Interest on Bonds, \$6120.00

Respectfully submitted,

Geo. A. Schofield,
William H. Rand,
Geo. H. W. Hayes,

} Water and
Municipal Lighting
Commissioners.

Ipswich, Jan. 1, 1907.

ENGINEER'S REPORT.

To the Board of Water Commissioners:—

Gentlemen: Following is the report for the year ending December 31, 1906.

MAIN PIPES.

During the year the following extensions of mains have been laid :

The main pipe has been extended on the Linebrook road a distance of 377 feet, 6 inches.

The main pipe has been extended on East street from Glover's corner to a point below the old Sutton house, a distance of 980 feet, 6 inches, and one hydrant put in on this extension.

The number of feet of mains laid to date and the sizes are as follows :

Sizes	Feet
14 inch	1,505
12 inch	10,963
10 inch	8,830
8 inch	17,897
6 inch	44,995
4 inch	804
2 inch	579

Total 85,583=16 miles, 1,203 feet.

STREET GATES.

Total number now set is..... 140

HYDRANTS.

They are all in good working order, the total now set is as follows :

Town	146
Private.....	12
Total.....	158

SERVICE PIPES.

Twenty-two services have been added this year. Total number of services connected with works to date, 786. Number discontinued this year, 3.

Number of families using water on Jan. 1, 1907, 873

Number of faucets sealed Jan. 1, 1907, 24

Twelve services are shut off at the sidewalk. These do not include services supplying sillcocks only, or those of summer residences.

Following is an account of the number of services added, also the number of feet of service pipe laid (by years) since the works were put in.

Year	No. of services added	Town		Private		Total	
		Ft.	In.	Ft.	In.	Ft.	In.
1894	181	4,470	4	2,771	2	7,241	6

I hereby certify that I have made weekly examinations of the books and accounts of the Clerk of the Board of Water Commissioners and found them correctly cast. Carefully examined all bills against the Department and approved them before they were paid, and have this day examined the different securities and deposit books which comprise the Sinking Fund, and found them correct as stated above.

Feb. 9, 1907.

JAMES DAMON, Auditor.

TREASURER'S REPORT.

CHARLES W. BAMFORD, Treasurer, in account with the
WATER BOARD for the year ending December 31, 1906.

DR.

To cash on hand Jan. 1, 1906.....	\$ 3,769 68
To cash received from Commissioners	10,564 94
To cash Hydrant service appro.....	1,781 00
	\$ 16,115 62

CR.

By Commissioners' orders paid	\$ 11,958 22
By cash on hand Jan. 1, 1907.....	4,157 40
	\$ 16,115 62

The foregoing balance sheet I have found to be correct and to correspond with the books of the Town Treasurer. I find the cash balance in the hands of the Treasurer to be correctly stated, viz:—
\$4157.40.

JAMES DAMON, Auditor.

	<hr/> \$3203 34		<hr/> \$3203 34

It will be seen that the profit from these two departments, i. e. sale of light and inside wiring, is as follows:

Profit from sale of light	\$ 1782 50
“ “ inside wiring	798 63
Total profit	<hr/> \$ 2581 13

The unpaid bills for these two departments are as follows:

Due Pettingell-Andrews, supplies	\$ 321 66	
“ F A Swan, supplies	11 96	
“ General Electric Co, lamps	81 35	
“ J W Goodhue, supplies	19 88	
“ A G Osborn, oil	2 50	
“ G E Marsh Co, soap	4 25	
“ Parmenter & Polsey	2 75	
		444 35

As an offset against these bills there is in the two departments, as per the inventory taken Jan. 1, 1907, supplies on hand valued at cost price amounting to 458 25

In the construction department the following bills are owing:

Pettingell-Andrews Co, wire, etc	278 59	
General Electric Co, transformers and meters	134 76	
American Express Co, express	5 57	
		418 92

The inventory of the supplies on hand in this department, taken at cost price, Jan. 1, 1907, is 842 20

The following table shows total bills owing by plant for all material and labor to Jan. 1, 1907, and the total stock on hand:

CR.		
Inventory stock, construction	842 20

		863 27
Balance in favor of town		437 18

In 1905 the legislature passed a law which made it necessary for us to stop making an appropriation of a stated amount each year for each street light as we had been in the habit of doing. Under the new law, we were obliged to estimate the expense and the income, and to appropriate a sum to make up the difference. Up to 1906, Ipswich had appropriated \$6 a year for each street lamp, a total of \$3804. but in making up the new estimate, it seemed to me that as we had cleared \$1201. in 1905 that we could get along with a smaller appropriation. With the \$1201. on hand, I estimated

that we would need only \$1500, instead of \$3800, and accordingly only \$1500 was appropriated this year for maintenance.

I am pleased at this time to be able to report to you that the growth of the plant has been so large that we have cleared \$1782.50 on the sale of light, which means that we have saved the entire \$1500 appropriated and \$282.50 more. In addition to that, we have cleared up a profit of \$798.63 on our inside wiring department since it was started.

The net result of the above statement is that the cost to the town of Ipswich for lighting its streets, 660—16 candlepower lights burning all night, has been as follows :

DR.			
To balance on hand, Jan. 1, 1906,	(sale of light)	\$1201	91
“ “ “ “ “ “ “ “ “ “	(inside wiring)	296	39
“ appropriation 1906, for maintenance,		1500	00
			<u>\$ 2998 30</u>

CR.			
By balance on hand, Jan. 1, 1907	(sale of light)	\$1782	50
“ “ “ “ “ “ “ “ “ “	(inside wiring)	798	63
			<u>\$ 2581 13</u>

Cost of maintenance for 1906,	\$417 17
-------------------------------	----------

It will be seen that the cost of maintaining 660 street lights has been 63 cents each for a year.

If the interest on notes and a depreciation of 5 per cent on the entire plant are charged up to the street lights, we have the following cost :

Balance of maintenance cost,.....	\$ 417 17
Interest paid on notes,	1560 00
Depreciation reckoned at 5 per cent.....	1800 00

Total	<u>\$ 3777 17</u>
-------	-------------------

This would mean that after adding to the cost of street lights every possible item of cost, that the 660 street lights in Ipswich cost for 1906 only \$5.72 each for the year.

The depreciation item of \$1800 is one that opponents of municipal ownership insist should be added to the cost. As a matter of fact, it is a very misleading item, for our plant is worth more to-day than it cost. Take copper wire, for instance. We bought \$8,000 worth at 14 cents a pound. To day it is worth 24 cents.

Again, a running plant with a good line of customers has been decided by the courts to be worth more than its first cost. I have included this item of depreciation, not because I think it should be included under the circumstances, but because I do not wish to omit any item that could possibly be called for.

When it is considered that \$14 a year would be about the lowest price that a private company would ask for each light, and that at that price it would have cost Ipswich \$9240 for the same light we have supplied during the past year on the streets, I believe that Ipswich people, at least, will be ready to stand for municipal ownership.

Last year I recommended that the price of light be reduced from 15 cents to 12 cents per kilowatt hour. Your board adopted the recommendation, and the very excellent showing made for 1906 was at the reduced price of 12 cents.

The number of services in use Dec. 31, 1905, was 105, and Dec. 31, 1906, 131, a gain of 26 services in 1906.

The following table shows the class of service for the two years:

	1905	1906
Dwellings	42	50
Stores	28	34
Offices	9	15
Mills and Shops	10	13
Stables	8	9
Halls	7	8
Churches	1	1
Hotels	0	1
	<hr/> 105	<hr/> 131

The system spoken of last year of keeping separate accounts for each department, showing the exact cost for labor and material for each department, has been in force this year. Every pound of coal used to Jan. 1, 1907, has been paid for and all bills on the treasurer's books are paid.

In conclusion, I desire to extend my thanks to the members of the board, and to the men in the employ of the department, for their hearty cooperation in the work of making the plant a success.

Respectfully submitted,

GEO. A. SCHOFIELD, Manager.

Ipswich, Jan. 1, 1907.

This is to certify that I have made weekly examinations of the books, vouchers, and other accounts of the Electric Lighting Department, and find them correct, and that the various books of the department correspond with the balance sheet of the treasurer.
Ipswich, Feb. 14, 1907. JAMES DAMON, Auditor.

COMMISSIONER'S REPORT.

To the Citizens of Ipswich ;—
Gentlemen,

A perusal of the Manager's report will show to you that the Municipal Lighting Plant has had a very successful year. The light furnished has been of excellent quality, the running expenses have been kept at a very low figure considering the amount of work done, and there has been a steady increase in the income. The station, the electrical and steam apparatus and the lines are in good condition, and it is safe to say that the prospect for continued success is excellent.

In our last report, we called attention to the necessity as a matter of safety, of the building of a new line from Depot Square to Sullivan's Corner, on the Topsfield Road. When the plant was put in, it was decided to use the telephone poles on that road, but it has turned out that those poles are not strong or safe enough for our lines. During the past year we have put in that new line, and have also continued from Sullivan's Corner to Norwood's Mill on a guarantee made by Mr C J Norwood. We have also put in a new line of poles and wires from Topsfield Road to the head of Brownville street.

We have received an application from Mr. C G Rice, to give him an estimate on the cost of extending the line this coming spring from Sullivan's Corner to his estate, and we are of the opinion also that the County Road line should be extended to the Hamilton line as soon as the State Highway Commissioners define the lines of the new highway. There is also a proposition under consideration of selling electricity to the Town of Rowley, or to a company of Rowley citizens who will erect their own poles and wires.

During the past year the Ipswich Mills Co. has put in its own

electric equipment, and we have lost a large part of their trade, but the new customers added last year and those who are to be probable customers during this year, will in all probability enable us to keep our receipts up to the present standard at least.

In the figures given on the preceding pages will be found the record of the expenditures and receipts for construction, maintenance and jobbing, also the earnings of the various departments. The Manager's report speaks for itself, and the facts there given are the best evidence of the success of the department.

Respectfully submitted,

Geo. A. Schofield,	} Municipal	
William H. Rand,		Water and Electric Light
Geo. H. W. Hayes,		

We have continued the practice of electing the Chairman of the Board as manager and clerk of the Electric Lighting Plant, and although the work and the responsibility in this department has greatly increased, he has attended to the duties of both these offices in a manner which calls for the approval of his associates, and must meet with the approbation of the citizens in general. His compensation for attending to the duties of these two offices has been \$260. per year, and when it is taken into consideration that he has attended, in addition to the regular work incident to these offices, to all of the extra work, that has necessarily arisen in connection with the plant, for this compensation, when other plants are paying from \$1000. to \$2000. per year for similar services, we feel that it is but a matter of simple justice to him to say that his willingness to give for this very small compensation, not only his own services but those of his secretary, paid, not by the Electrical Department nor by the Town, but by the manager himself from his own private funds, and the strong personal interest he has taken from the very installation of the plant to make it a success, have been very strong factors in making it possible for us to come before you with the great record of the past year, and with his continued interest in the plant to expect still continued success from this department of the Town.

Respectfully submitted,

WM. H. RAND,
GEO. H. W. HAYES.

TREASURER'S REPORT.

CHARLES W. BAMFORD, Treasurer, in account with the
Municipal Lighting Department, Ipswich, Mass.

Report of the Committee.

This year, in presenting the annual report, it is the judgment of the committee that little more is required than to merely preface the remarks of the superintendent, the special teachers and others. Their contributions to this work have become so uniformly comprehensive that an attempt at elaboration by the committee might invite the criticism of "painting the lily," or of "bruising the wood after the nail has been driven home." It is to be understood that, unless stated to the contrary, the suggestions and recommendations of the superintendent and others as published herewith are fully endorsed by the committee, and are entitled to all the consideration that such endorsement can bespeak for them.

While it is our purpose to refrain from entering into the details of routine work, there are several matters which may be touched upon lightly and in a more general way.

Year's Work Satisfactory.—Notwithstanding the difficulties under which the work of the high and common schools has been prosecuted during the past year, we feel it but just to the teachers to say that their labors as a whole have been marked with a degree of faithfulness and attended

with generally satisfactory results. Effort has been made to develop not only the mental but the moral side of the nature of our youth. To this end high ideals have been constantly exhibited and endeavor made to inculcate lofty aims and noble purposes. The great Wesley said: "If we aim at the moon we shall strike something higher, than a stack of hay." And so, while the mark of absolute perfection may have proven unattainable, the standard has been lifted up that the aim might be high, and the results are contemplated with reasonable satisfaction.

School Physician.—The attention of the town is called to Chapter 502 of the Acts of 1906. According to the provisions of this chapter the school committee of every town must appoint one or more school physicians, whose duty it shall be to "make a prompt examination and diagnosis of all children referred to him, and such further examination of teachers, janitors and school buildings as in his opinion the protection of the health of the pupils may require." The committee has not appointed such physician because he cannot be paid out of the regular school appropriation. Special appropriation for this purpose alone must be made, as is shown in section 7 of the above-mentioned act, which reads: "The expense which a town may incur by the authority herein vested in the school committee shall not exceed the amount appropriated for that purpose by a town meeting. The appropriation shall precede any expenditure or indebtedness which may be incurred under this act." The committee recommend that an article be inserted in the warrant for the annual meeting to see if the town will make an appropriation for this purpose.

Economy In Finances.—By careful manipulation of the funds placed by the town at the disposal of the school department, we are pleased to state that the committee has this year been able to keep within the appropriation and to

have a sufficient balance on hand with which to meet February payments. Thanks are due the voters of the town for the generally open-handed manner in which they have dealt with the matter of school appropriations, and particularly for their generosity last spring, which proved a great boon to the department.

Pay-Roll Now Kept by Secretary.—Previous to this year the pay-roll of the school department was kept by the selectmen, the committee approving bills against the schools, wrapping vouchers, submitting the same to the auditor and the selectmen entering the names and amounts upon the book and ordering payment. This year the pay-roll has been kept by the secretary of the school board, who, after approval by the auditor, records the bills and the full committee orders payment.

Heavy Expense for Repairs.—The bills for repairs this year have been quite heavy and have eaten a long way into our appropriation. But it has been unavoidable. The work has been well done, and the economical handling of the finances has been an ever-present and important factor. The painting of the school houses was done by contract, upon which the committee invited sealed bids. This method appeals to us as being a fair and just manner in which to deal with all like matters of considerable consequence and importance. It gives our craftsmen equal opportunity and frees the committee from the suspicion of favoritism in the dispensation of patronage.

Expression of Appreciation.—We cannot refrain from expressing our thanks to Fire Chief Barton and his associate engineers for the kindly manner in which they met our appeal for the company room of Hose 1 in which to house one of our sixth grades, which was practically homeless, with winter fast approaching. Nor should we fail to appreciate

the spirit of entire willingness with which the members of the company acceded to our request in this particular, inconveniencing themselves in no small degree thereby. Such acts of kindness ought not to pass unrecognized. Miss Low and the children of her grade now have comfortable, if not altogether commodious, quarters and are quite well satisfied under the circumstances.

Merited Commendation.—Of the superintendent we desire to speak in terms of regard and esteem. We value him for his sterling worth, his strict integrity, fine scholarship, the faithfulness with which his every duty is discharged, the tact with which difficulties are met and overcome, and for the kindly spirit which he manifests toward all and in which he performs his various duties. There is no more welcome visitor to the school-room than Superintendent Martin, in whose praise we would speak unstintingly and without solicitation.

The New Music Supervisor.—The work of Mr. Arthur H. Tozer as supervisor of music is deserving of special mention. His system of teaching seems to be the right one, as it deals more particularly with the theory of music and is not devoted principally to voice building or the production of harmony. Not all pupils have alike good voices, and many are unable from natural defect to distinguish differing musical tones. To give such pupils a low rank would be a gross injustice, as it would seem like holding them responsible for nature's lack of endowment. But all pupils, regardless of talent, can learn the technical terms employed in music, understand the composition of the staff, the value of the notes, rests, etc., and the marks of expression. In this respect the pupil who cannot sing a note can take as high rank as the most gifted scholar in the school. This is what Mr. Tozer insists upon and it is just. At the same time, those who have good voices are given ample opportu-

nity for developement, though they receive credit for what they do for themselves and not for what nature has done for them.

In conclusion we call attention to the various reports presented herewith and ask that they be given careful consideration.

Respectfully submitted,

GEORGE W. TOZER
JOHN H. COGSWELL
HARRIET E. NOYES
CHARLES W. BAMFORD
CHARLES G. HULL
JAMES W. PERKINS

School Committee of Ipswich

Report of the Superintendent.

To the School Committee of the Town of Ipswich:

Review of the year's record for this my second annual report affords me no little pleasure. Generally faithful service has been rendered by teachers, and earnest study has been done by most of the pupils. Harmony has marked the relations of teachers and pupils. The discipline of the schools has been praiseworthy. Increased efficiency, therefore, has been reached, and encouraging results have been obtained.

This prosperity is all the more gratifying in that it has been attained in the face of uncommon obstacles. Frequent illness among the teachers has broken in upon regular work. While no serious sickness has prevailed among the pupils, yet various little illnesses have reduced the attendance, particularly in our primary grades. Again, our still continued lack of room has driven to makeshifts which have been hindrances to progress. The large number of pupils in the middle grades has necessitated two classes and, therefore, two rooms for each of the fifth, sixth, and seventh grades. One sixth grade class was crowded out of the Winthrop schoolhouse. To find a roof for this class the committee at its wit's end took away a room in the Manning building from

the High School, already hard bestead for space. The cost of this action, as the High School teachers will tell you, was the loss to their classes of many recitations, and corresponding loss of ground in English, Latin, German, and the rest. After about three months of such sacrifice, stern winter drove these classes out of the unheated corner rooms to which they had resorted, and the homelessness of these forced the committee to harry the town yet again for quarters. The kindness of officers and men of the Fire Department opened the upper room of the Warren street station to the sixth grade tenants in Manning, and let the High school back to its own. This hapless sixth grade has now a roof, but protests are to be expected from Ipswich parents against quartering their children to the jeopardy of health in the foul air of low-ceiled, unventilated, unsanitary, alien rooms wholly unsuited to school uses. Such makeshifts are dearly bought. They render scant return for the considerable expense of fitting and furnishing them for the short time in which they may be utilized. The desperate straits, to which we are driven, is the only pretext for justification of an expenditure inviting the criticism, "penny wise, pound foolish."

Lack of room is responsible also for the crowding of seventy children of the third and fourth grades into the low-studded upper story of the Payne schoolhouse. The same lack is to blame for the assignment of an assistant to Miss Willcomb in a building, which, however hospitable at heart, has no standing-room for an assistant teacher. Yet we have set Miss Jewett, free in the winter months from her Grape Island charge, to aiding Miss Willcomb in this untoward place. A mere glance from gainsayers at the dark, dingy, narrow space under the stairs, in which Miss Jewett and her class spend much of their time, would free the committee from any necessity of words about the straitened habitation of our schools. It is our good fortune this year that

the number entering our first grades was small; otherwise, children of the Cogswell, Dennison, and Payne houses would have been in the plight of the homeless sixth grade at the Winthrop.

There have been numerous changes in our teaching body. Mr. Kershaw, our esteemed supervisor of music, resigned in the summer to accept position elsewhere. Happily the committee was able to engage Mr. Arthur H. Tozer, townsman of our own and product of our schools, who is now enthusiastically and successfully supervising our music, commanding the approval of teachers and pupils.

At the opening of the school year, sickness in the family compelled Miss Adams, principal of the Winthrop school, to ask leave of absence for a time. Miss Katherine Sullivan was transferred from the eighth grade in the Manning to the principalship and one of the seventh grades at the Winthrop. Miss Miriam Waters, one of our own, came to our relief by taking the place vacated by Miss Sullivan. The return of Miss Adams in late October permitted the resumption of her own place by Miss Sullivan and the release of Miss Waters, which the condition of her health made welcome. It is a privilege here to record our thanks to Miss Sullivan and to Miss Waters for the accommodation which they gave us, and to make record of their excellent service. In February, 1906, Miss Mabel R. Willis, who had served us efficiently for thirteen years, went from the sixth grade to take more lucrative place in the schools of Lynn. Miss Nina E. Low of Gloucester was elected to fill the vacancy thus made. In September Miss Mabel Powell was transferred from sixth grade to the new seventh; Miss Baker from fifth to the new sixth; Miss Bagley from Manning street fifth to Winthrop fifth; Miss Brown from primary work at the Wainwright to the Manning street school of fourth and fifth grades; and Miss Carrie I. Black, educated in our own

High School and in the Salem Normal School, was chosen teacher at the Wainwright.

Our outlying schools, Linebrook, Appleton, Argilla, and Grape Island, have done earnest, creditable work. In quality, their pupils do not suffer in comparison with those of our central schools. The teachers are worthy of the esteem and confidence which we accord to our teachers in general. The enrollment is small; Linebrook having seven pupils, Appleton seven, Argilla three, Grape Island four. The quality of their output, however, bulks larger than the quantity.

The re-election of every teacher on our force at the close of the last school year is testimony to creditable service and to harmonious relations.

In our course of study in geography a change has been made, which practically completes that study in the eighth grade, and allows the ninth grade to spend its energies in other directions. We have brought the thorough study of the United States into an earlier grade, in order that our many unfortunate boys and girls, who are debarred from finishing the course in the grades, may not go out into life ignorant of the geography of their own country.

Partly with the view of meeting the needs of the same pupils, we have altered also our procedure in the study of hygiene. An introductory course, based on an interesting elementary book, has been provided for the fifth grade; while a more exhaustive course from an advanced text-book is reserved for the ninth grade.

The introduction of a new text-book has contributed to increased interest in the grammar of the eighth and ninth grades. Indeed, in all our grammar grades the study of

language is pursued with pleasing earnestness. Visiting teachers from without have commented on the superior work of our schools in language and grammar. When it is borne in mind that there is prevalent complaint of the poor work which schools are doing with our mother tongue, this commendation from visitors is the more significant.

Effort has been made toward greater interest and toward improvement in reading and writing. As aid to this endeavor, Mr. Cooley of the house of Silver, Burdett & Co. gave to our primary teachers an interesting and instructive address on the Ward system of teaching reading and on the effective handling of the system; and Mr. Clarke of the house of Ginn & Co. gave to all the grade teachers an inspiring and helpful address on the principles and application of our Medial system of writing. Our classes are but scantily furnished with basal and supplementary reading books. It is to be hoped that this want will be supplied early in the coming year.

While the deportment of our pupils has been quite commendable, the existence of three or four aggravated cases of misdemeanor prompts us to invite parents and guardians to unite with us in the exercise of a wholesome restraint upon the conduct of our youth. Exemplary children in the home cannot be far from exemplary in the school and on the street. We have regretfully allowed the law to take its course with some unruly ones. We strongly hope that severe dealing with these will avert a similar fate from some who incline to the path of wrong.

Notwithstanding the loss of ground in some studies, resulting from the loss of a room for nearly three months, our High School is in prosperous condition. The good deportment of the students and the mind to work are deserving of note. The enrollment is lower than usual, because the two

upper classes happen to be small. Variation of numbers in the High School is to be expected in towns of the size and character of Ipswich. Next year gives promise of a higher enrollment, the year beyond of higher still. Not unlikely, two years hence, the attendance at our High School will reach its highest mark.

The attention of parents is respectfully called to the new law of our Commonwealth, which requires annual inspection of the eyes and ears of children in the schools. The inspection has been carefully made in all our schools except those of the first grade. The developments are saddening, particularly in the commonness of defective eyes among our younger children. In accordance with the law's requirement notice has been sent to parents in whose children deficient sight or hearing was discovered. This benign law should elicit the gratulation of parents, and should prove prolific of benefit to the rising generation. No worthy parents will ask whether it is compulsory that they shall attend to the impaired eyes or ears of their own children. Because of weak sight or hearing, not a few pupils have been retarded in their progress and have been rated as intellectually dull. Let us welcome the law which aims to free our children from such impediment and from such liability to misjudgment. We have been cheered at the sight of more spectacles since the inspection was made. May we urge upon parents, who have not yet acted prompt co-operation with the State and with us in relieving their children from the limitations and, in some cases, from the pain, which imperfect eyes or ears impose? The cost will generally be moderate, but, even when high, will yield rich return. It would be a wise expenditure of money if the town should take the burden of cost from parents who cannot afford the outlay.

We would respectfully entreat with renewed urgency for

enlarged school accommodations. The coming September will in all probability find us in worse plight than any past September, unless our cry for more room gets early answer. The first grade classes of next year are the more likely to be large because those of this year were small. The High School, even with its present attendance, is fettered in its work, and needs now every available room of the Manning building. Longsuffering teachers and injured pupils of the eighth and ninth grades should be early released from their confined quarters in Manning and from the miserable confusion and harassment in which they are involved by removal of a division from room to room at every change of recitation. Many precious hours are wasted in the course of a year by the halts in work, which these conditions compel. The Warren Street and Manning Street schools should have more convenient and more healthful habitation. Whatever other provision should be made for the primary grades, there is imperative need of the addition of at least four new rooms to the Winthrop schoolhouse for the grammar grades. The children of our town, our heritage, our citizens-to-be, have peerless claim upon our consideration. We cannot believe that intelligent Ipswich purposes to give deaf ear to the importunate crying of school officers and teachers for buildings which will free our children from grievous hindrances, and secure for them advantages which children in other communities enjoy.

I take pleasure in bringing to your consideration the accompanying reports of the principal of the High School, of the supervisor of drawing, of the new supervisor of music, and of the new truant officer. I am in hearty agreement with the recommendations made in these reports.

Permit me to thank you for your prudent action in increasing the salaries of some of our teachers; and bear with me in the expression of my hope that you will see the way

to yet further increase. May I ask you also to consider the wisdom of adopting measures which are now quite common in cities and towns, namely, the equalizing of the salaries of primary and grammar teachers, and the fixing of a maximum and minimum wage? Would it not be wise to grant "tenure of office" to teachers who have earned approval for themselves in two years' service? It would seem unnecessary to go through the process year after year of re-electing teachers, whose character and work have established them in your approval. This provision would keep such teachers in office so long as their conduct and ability are unchallenged. Also it would relieve teachers of the annually recurring anxiety over the question, whether or not they are to lose their occupation.

I would improve this opportunity to thank the Trustees of the Manning Fund for a valuable and useful gift to the High School, the International Encyclopædia. My thanks are cordially given to you for counsel and support, to teachers for ready co-operation, to parents for marks of regard, and to pupils for respect and friendliness. These kindnesses all work together to make my labor a labor of love, and incite to worthier endeavor in the service which you have entrusted to me.

Respectfully submitted,

ROBERT M. MARTIN,

Superintendent of Schools

February 1, 1907.

Report of the High School Principal.

To the Superintendent of Public Schools,
Ipswich, Mass.

Dear Sir:—

I hereby most respectfully present to you my report of the Manning High School for the year ending December 31, 1906.

At the beginning of the school in September the whole number of pupils enrolled was seventy-three, two of these being post graduates, and one taking a special course. There are seven in the fourth year class, ten in the third year class, sixteen in the second year class, and thirty-six in the first year class.

Within the last two years large classes have graduated. An unusually large number has left school on account of sickness, unsatisfactory work and other causes. This explains why the membership of the school happens to be smaller than it has been for several years. With very small classes graduating within the next two years and large classes entering, the membership of the school will be greatly increased.

The scholars do more work than formerly, yet parents may greatly assist the teachers in obtaining better results. Whenever a pupil's rank on his monthly report is below the

standard, if the parents will consult with the teachers, some influence may be brought to bear upon the pupil which will lead him to do more work. I firmly believe that school injures a scholar who does not do satisfactory work.

The High School should have the use of the whole building. The demand for it is pressing.

I have just reasons for being pleased with the kind of instruction in music. All take music and intelligent work is being done.

The teachers work with keen interest and harmony rules.

The school expresses thanks to the Trustees for a set of the International Encyclopædia.

The school committee and superintendent have certainly done all they could for the real interest of the school.

Very respectfully,

JOHN P. MARSTON,

Principal of the Manning High School

Report of the Supervisor of Drawing.

In summing up the work in drawing for the past year I would say, that I am much pleased with the interest manifested by the teachers and pupils; itself an incentive to greater endeavor.

Our aims are higher, but the course remains the same

as last year, the latter with the constant addition of new branches along industrial lines.

With one class in mechanical drawing in the High School and the extra room on Warren street. my visits of necessity have been changed; and for the benefit of those interested in visiting the schools, I will give the following itinerary: Wednesday p. m. from 1:30 to 2, alternating Manning street school with Warren street school; from 2:15 to 3:30, Payne school. Thursday a. m. from 9 to 10, Cogswell; from 10:15 to 10:45, alternating Wainwright school with grades I and II Dennison school; from 11 to 11:30, grades III and IV, Dennison school; from 11:45 to 12:30, High school. Thursday p. m., Manning school grades VIII and IX. Friday a. m., Winthrop school.

Eight new framed pictures and seven unframed ones were added to the schools in the spring. Our thanks are due the parents and friends of the pupils who made the Turner exhibit a success.

Respectfully submitted,

ETHEL W. RATSEY,

Supervisor of Drawing

APPENDIX.

Report of the Supervisor of Music.

To the Superintendent of Schools,

Dear Sir:

I beg to submit to you the following report:

Music in the public schools should rank with all other studies, even, perhaps higher than some. It seems to me that the true idea of teaching music in our schools is not wholly to produce good voices, but to so thoroughly ground the pupil in the theory of it that he may be able to better understand and appreciate this great art when through with his other studies. For his recreation will consist, in a great measure, of music; and nothing so elevates the mind, adds refinement and culture to a young person, and points out to him the best side of life, as this study. To this end, with the assistance of the teachers, I am trying to advance the different grades.

The primaries, I find, could perhaps be better drilled if the chart were more suited to their youthful minds. It is here, in these lower grades, that the most thorough work must be done, as the foundation of music—as important as the foundation of a house—must be established.

When the scholar reaches 4th, 5th, 6th, and 7th grades, he begins to understand and help all in his power. Also part-songs are begun here, and the work now being done

shows the interest taken. The changing of books in some of the rooms seems to be very beneficial.

The 8th and 9th grades are doing good work, although the result would be much better if we were not so cramped for room.

I would recommend more time being given to music in the High School. Although the interest taken by the scholars in music in this school is very pleasing and satisfactory, we cannot accomplish much in one period a week. It should be a daily study.

A system of examinations has been established in the different grades which helps the student greatly.

I wish to thank you, the committee, teachers and scholars for the interest shown in the work and the assistance which I have received, and trusting that I may be able to show marked improvement from now on. I remain

Respectfully,

ARTHUR H. TOZER,

Supervisor of Music

Report of the Truant Officer.

To the Superintendent of Schools,

Dear Sir:—

I beg to report that in my few months in office

I have investigated twenty-four cases, eighteen boys and six girls. Of these. one was detained at home for want of shoes, and several because of sickness.

I wish to extend my thanks to all concerned for co-operation and support.

Respectfully submitted,

WARREN BOYNTON,

Truant Officer

The Savings Bank Book of the Treadwell Fund has not been presented at the bank for adjustment of interest since last year, hence the amount remains the same.

In conclusion I would say that I have found a satisfactory voucher for each and every sum paid out, and the books kept in a neat and systematic manner.

Yours respectfully,

JAMES DAMON, Auditor.

February 4th, 1907.

NUMERICAL STATEMENT.

School Census Data.

Number of children in town between the ages 5 and 15 years, according to the census taken in September, 1906	861

“Diamonds from the Deep.”	
Awarding of Diplomas.....	Supt. Robert M. Martin
Benediction.....	Rev. Reginald Pearce
Music.....	

Class Ode.

School days so happily spent are o'er,
We greater tasks must now pursue;
Each noble aim above doth soar,
We'll strive our best to do.

Future pathways stretch on before,
Some of them gloomy, some of them bright;
But we will follow each path as it leads,
For all will end with light.

Hand in hand we have climbed together,
Mingling toil with frequent pleasure;
Deserving victories we have won,
But life's greatest struggles are yet to come.

Farewell, kind teachers and classmates so dear;
Though we know not what life has in store,
Still let us hope to once more be united
On that Eternal Shore.

—*Helen George Brown*

For said Trustees,

GEORGE E. FARLEY,

their Treasurer.

December, 1906.

APPROPRIATION.

The committee recommend the following for 1907:

Appropriation... ..\$17000 00

To be applied about as follows:

Teachers' salaries.....	10500 00
Rent of Manning School building.....	1900 00
Text books and supplies.....	1500 00
Care of school buildings.....	750 00
Transportation of scholars.....	600 00
Fuel	750 00
Repairs	500 00
Incidentals.....	500 00
	<hr/>
	17000 00

The following statement of the Auditor should have appeared at the end of the financial account of the school committee:

This is to certify that I have carefully examined and approved the bills of the School Department monthly before they were paid.

JAMES DAMON, Auditor.

Feb. 11, 1907.

At the time the committee's report was written it was believed that there would be a balance on hand sufficient to meet the full payments on the first of February. But this, unexpectedly, did not prove to be the case. The committee however kept within the appropriation for the year.
